Right To Use Public Bathrooms

It is Montana Law!

All businesses open to the general public must allow use of bathrooms by anyone, whether buying something or not.

“(f) Business or commercial occupancies which are open to the public and located in portions of a private residence are required to be accessible even if those portions used for the business or commercial purposes are also used for residential purposes. The accessibility requirements extend to and include an accessible route from the sidewalk, through the doorway, through the hallway and other portions of the home, such as restrooms, used by clients and customers of the business or commercial occupancy.”

Community Ambassador Action Collaborative

The Hope Health Alliance, Inc.

MISSION STATEMENT

We are a community of those experiencing and in recovery from homelessness.

We advocate for our fellow humans to be heard & understood with Dignity, Love, & Respect. We open our hearts and minds to those expressing their pains, recovery journeys, & valuable experiences.

We inspire our fellow humans to uncover their own beacon of hope.

We stand with those experiencing homelessness arm-in-arm; and actively encourage all others to do the same.

“We are people, too.”

The Vision

We will strive to alleviate the experience of loneliness, isolation, stress, and pain for our neighbors without a home and those with behavioral health concerns.

We will provide peer-driven, peer-run supports otherwise inaccessible within the community.

We will never willingly or knowingly harm another human being, nor ignore taking action to stop another from doing the same.

We encourage the diverse paths our peers choose while recovering.

We will aid our peers using trauma-informed approaches while instilling hope, love, and empowerment.
